their performance at Rutland last Saturday, when they defeated the strong St. Peter's A. A. team by the score of 7 to 6 by winning at the hilltop campus Saturday afternoon by the score of 33 to 0, the game being listless and very onesided. By the victory Saturday afternoon the seminary warriors have com-pleted a very successful schedule, having won all of their games played this season with one exception, that being the game with Colby academy; played at they met defeat by the score of 35 to 0.

The game Saturday afternoon was attended by a large number of spectators, among them being Lawton Witt, the forathlete, was the feature of the afternoon's contest, although the playing of Beattie, Kelley and Jacobs is worthy of up one of the best backfields to have played under the red and white colors. The playing of Carroll and A. Sullivan of the St. Peters team was of high calibre. and had the remainder of the team shown up to as good an advantage the result of the game would have been a great deal different. The game was marked by many petty squabbles over the illegality of plays and references to the rule book were frequent, all of which tended to make the game a listless and a long drawn out affair.

The St. Peters team won the toss-up and chose to defend the west goal, as a good brisk wind was blowing from that did they make the first down on the direction, and they kicked to Goddard. The ball was in Goddard's possession the greater part of the first period. By a series of end rushes by Kelley and Smith, the ball was taken down the field into striking range of St. Peter's goal and from this point a forward pass from Smith to Kelley netted about 10 yards. although the ball was taken back to its former position owing to the fact that the whistle blew before the play was completed.

The second period opened with the ball in Goddard's possession on their opponents' 15-yard line, from where on two rushes Smith carried the ball for a touch down. Beattie kicking the goal a few minutes later. Beattie then kicked off to the St. Peter's team, the ball being run back about 15 yards. A few minutes later on an intercepted pass Smith made a handsome run for about 30 yards, making his second touchdown of the game Beattle failing to kick the goal. God- NAVY TEAMS TOO dard again kicked off to their opponents, who kept the ball only for a few minutes, a poor pass from Moriloni almost paving the way for another touchdown, as Smith and Slayton in their wild scramble for the ball managed in some manner to get tangled up with each other, although Smith crossed his opponents' line, only to have the ball taken back to the position at which the Smith-Slayton mix-up occurred. Goddard then lost the ball on downs, their opponents the first half of the game ended with the held Harvard at bay. ball in Goddard's possession in mid-

ARMY FORMED Raising of Strong Military Force in Ac- Ida M. Tarbell Tells Wherein a Considerable Amount of Money Could Be Saved.

> Ida M. Tarbell, the publicist and auwhich convenes to-day will be urged to ther, states that the prompt and cheerful response which the public in general makes to every reasonable plan of retive draft. The raising and equipment adjustment for war needs is one of the subject: "The waste in delivery service in the near future of a strong military most heartening exhibits in a dishearten-force, in line with President Menocal's ing world. Show men and women what ing world. Show men and women what recommendations in his last message, and is necessary and they spring to it. You with the plan of Cuba's council of na- must convince them it is right a heal- and the merchants give it to them and tional defense, await only the determiting the method to be followed, rather than the wisdom of the policy of General Menocal and his advisers, who the war against Germany shall take on a omy board laid the facts before the counmost active character. Leaders of both try. We were employing in sending their delivery expense is excessive, but political parties are in accord concern home our groceries about 100,000 men— what can they do—the other fellow does ing the raising of a large military force young men—and as many horses and it, and they must also. The fact repossibly doubling the present strength of the regular army and militia of more eral and department stores had great of the people are forced to carry their the members of Congress take their seats. a day were made to probably a million Whatever the character of the military households where one or two at the outmeasure to be enacted, all indications are side would have been possible if the them they can have anything at any ng every gallon of gasoline.

It cost money, of course. The average cost of deliveries to the grocers of this country has been about 3 per cent of their net sales. Naturally, they added who orders once a day pays for those who order a half dozen times.

It is possible we should have gone of seedless and unthinking of all this waste of motion and material if the war had not thrust its imperative demand for young men upon us. War thrives only then men are abundant. If war calls they must go. But how are we going to release them without stopping the machinery which supplies our daily needs? is the one taken by the commercial economy board in the reform of the delivery of goods. It is the study of each busi ness practice as an efficiency engineer would study a machine operation, finding the lost motions, the bad routing, the preventable waste. It means cutting every prodigality out, husbanding time and motions as strictly as money and It was such a study of the delivery

ystem that led the government to recimmend a fixed number of deliveries a day, at regular hours, to ask purchasers. as a patriotic duty, to carry their small packages; and to give up their freakish habits of asking for special deliveries and goods on approval.

The quick understanding with which

he merchants of the country met the request to reorganize their deliveries, to give up their elaborate competitive weapon that so many had come to think indispensable, is one of the proofs of the amazing voluntary co-operation in meet ing war needs that the country is giv-
